

B3
Cure

c. curing the resin bond.

6. Please delete Claim 18!

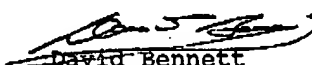

Remarks

The above amendments are submitted in response to a telephone discussion with the Examiner in which several issues of lack of clarity were discussed.

The opportunity has been taken to remove certain typographical errors in the specification. The errors were obvious and the corrections involve addition of no new matter. Page 20 was deleted since it merely repeated matter already included in the previous page.

It is believed that these amendments now fully meet the reasonable concerns of the Examiner and entry thereof, followed by allowance of the application, is respectfully requested.

Respectfully submitted,

David Bennett
Attorney for the Applicant
Registration No. 28,821
